|-----------|--|--|
| | <p>b) Facilities, Amenities & Services – CH reported that he had produced maps of the Village Halls and Open Spaces using the CC Interactive mapping system, but only with a PDF output format. Through the NPlan draft review it was then identified that additional open access and spaces needed to be added to the tables, and also GH advised that the Barripper Playing Field and Village Hall needed to be added as they were both located within the Crowan Parish. Accordingly CH will need to update the appropriate maps. CP explained that he had added a table showing the current bus services to make the existing public transport arrangements more clear.</p> <p>c) Commercial, Employment & Tourism – No additional comments.</p> <p>d) Land & Housing – CP & GH explained that in real terms the demand for affordable housing had substantially reduced over recent years as was typified by the Leedstown Ocean development. CP explained that he and GH had requested guidance from Sarah Furley on policies for Development Boundaries, Infill and Rounding plus Housing for Elderly & Infirm. Accordingly, the additional policies were read and agreed. CP reported that to have the Development Boundaries properly added to each community map the cost would be around £35 per map. It was unanimously agreed that GH should liaise with Sara Furley on the finalisation of the Development Boundaries and the maps production.</p> <p>e) Heritage, Landscape & Environment CP stated that he had edited and reduced the content within the NPlan, as Sarah Furley indicated that she would advise on the suitability of content. LJ showed the initial composite map that combines key Environment and Heritage aspects of land cover plus an additional map that adds the numerous private water sources throughout the parish.</p> <p>f) Renewable Energy – No additional comments</p> <p>g) Population & Demographics – CP confirmed that with the change of the NPlan format that this section will now become an Appendix, and that the content needs checking and updating against the CC commissioned Local Insight document published in November 2017, which contains the latest available figures, as had been covered by an email to all NP-SG members on 3 January 2018.</p> | <p>C Hodson</p> <p>G Henwood & D Smith</p> <p>A McLeod</p> |
| NP59/2017 | Any Other Business – None | |
| NP60/2017 | Next Meeting – To be set by G Henwood following feedback from Sarah Furley at CC Neighbourhood Planning. | ALL TO ATTEND |
